cell cycle

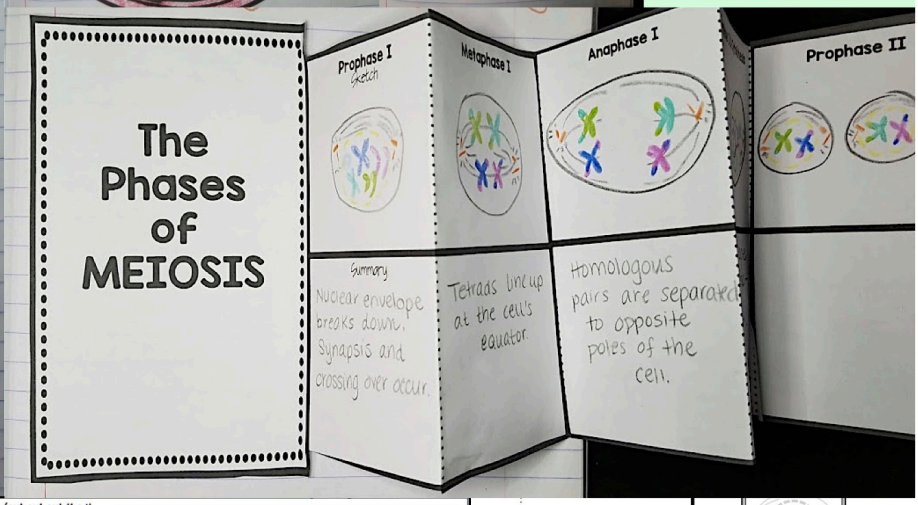

Interactive Notebook

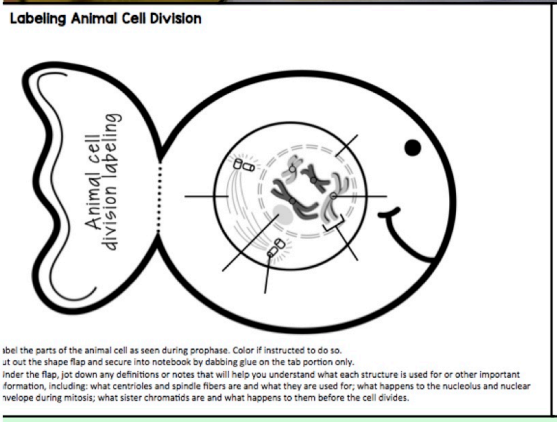

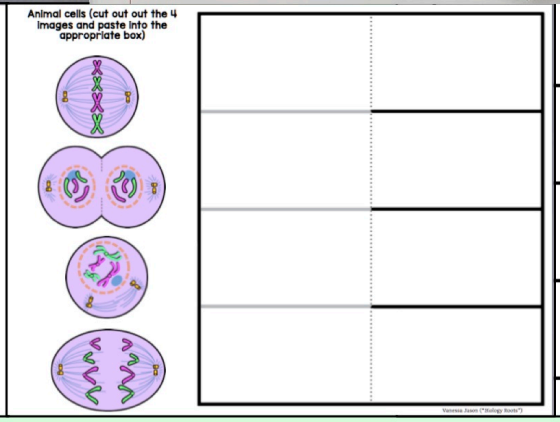

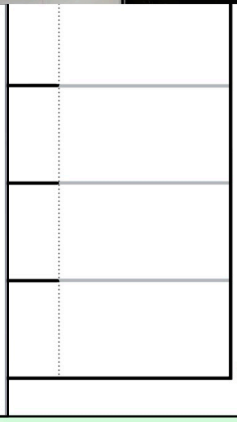

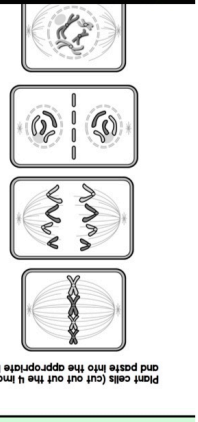

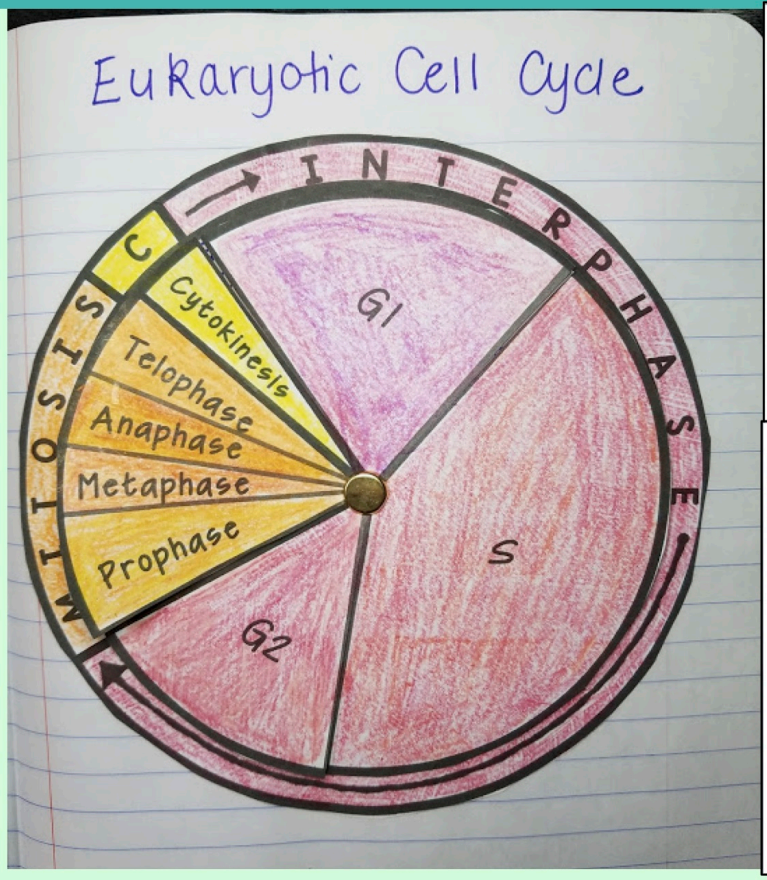

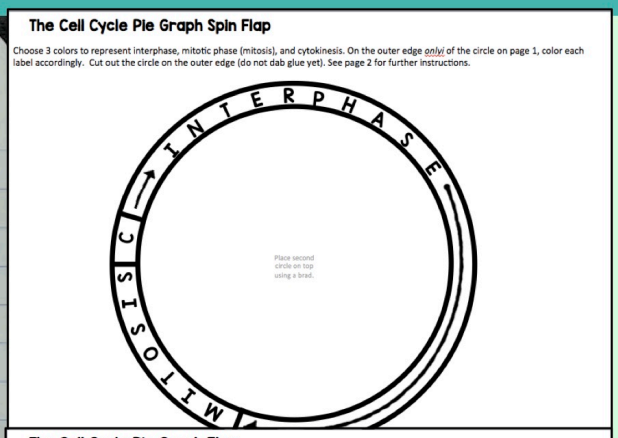

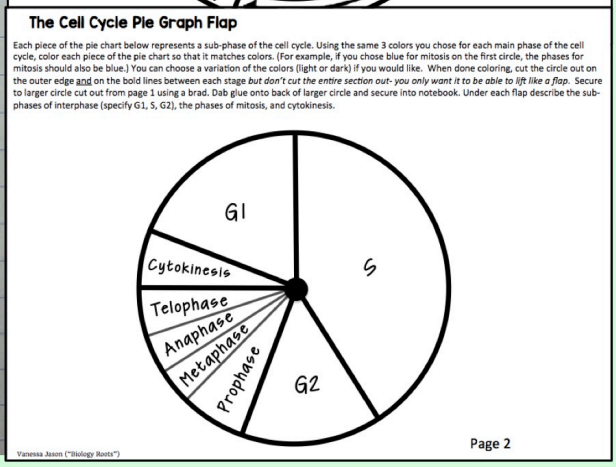

12 activities total with a focus on mitosis. Also includes the cell cycle, meiosis, and comparing meiosis and mitosis.

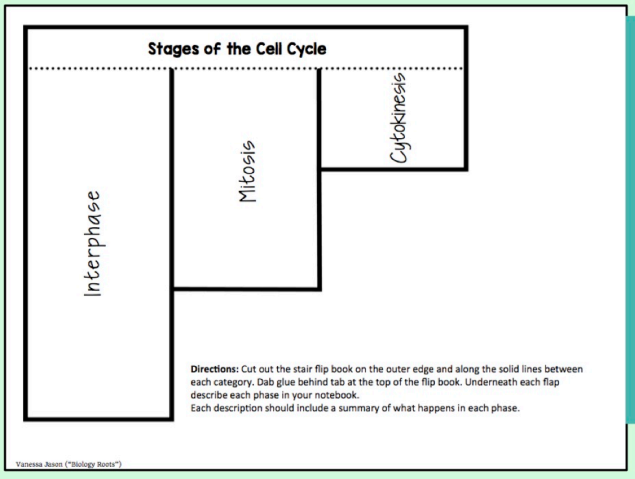

ANSWER KEYS, DIRECTIONS, AND EXAMPLES INCLUDED

Pie Graph Flap Spinner- Summarizes the phases of the cell cycle. Pie graph represents amount of time spent in each phase.

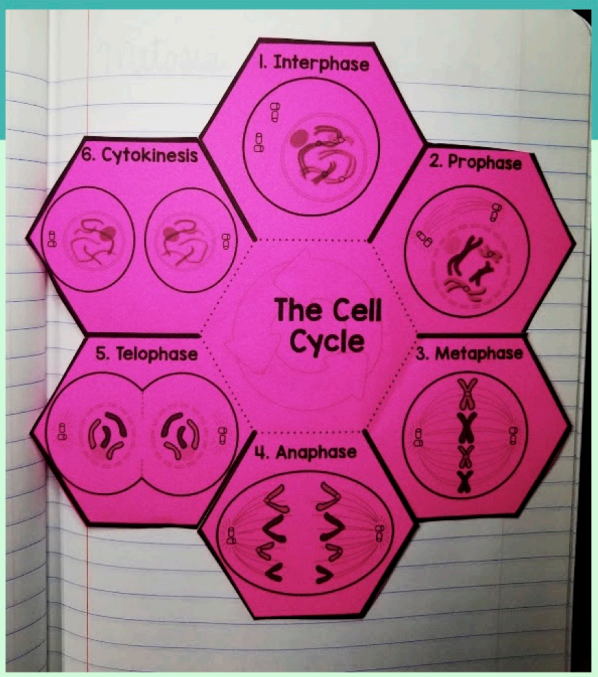

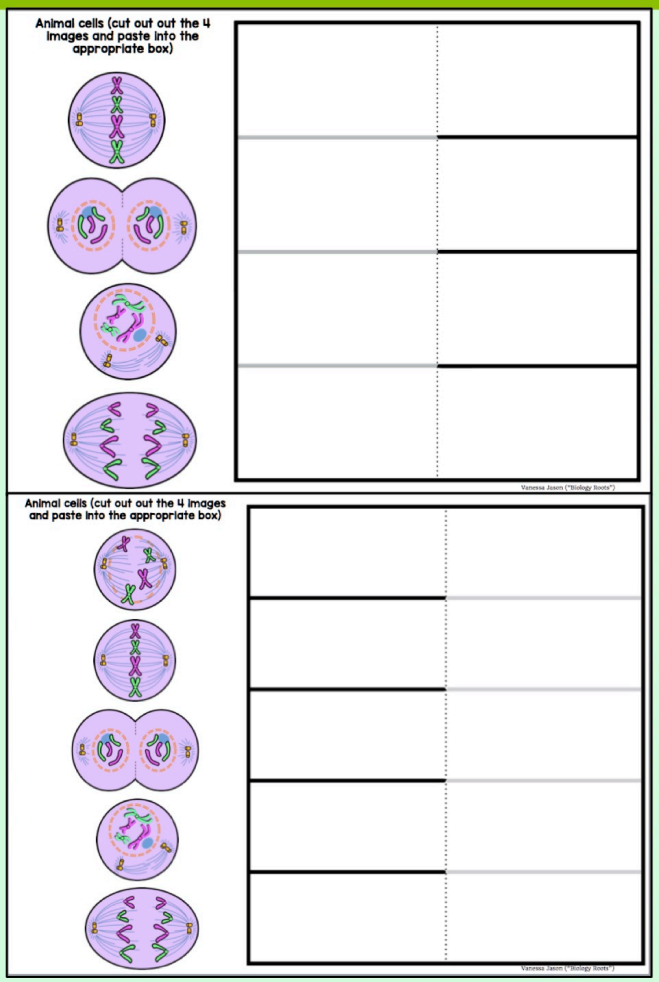

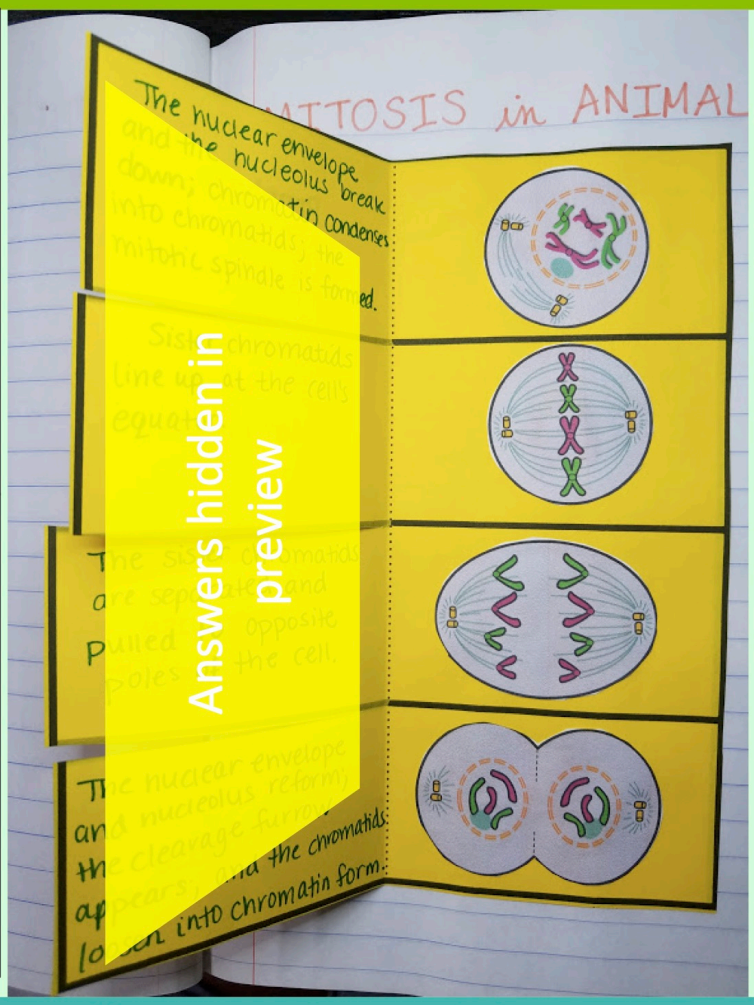

Stages of the cell cycle flap book- students summarize the stages of the cell cycle using a flap book.

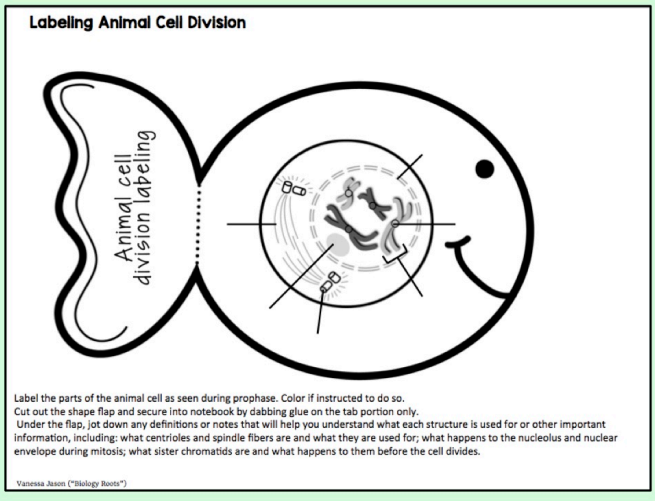

Cell Cycle Hexagon Fold- Includes 6 phases of the cell cycle for a quick and easy reference.

Mitosis in Animal Cells

Mitosis in Animal Cells Book Fold- one version includes prometaphase. Also available in black and white.

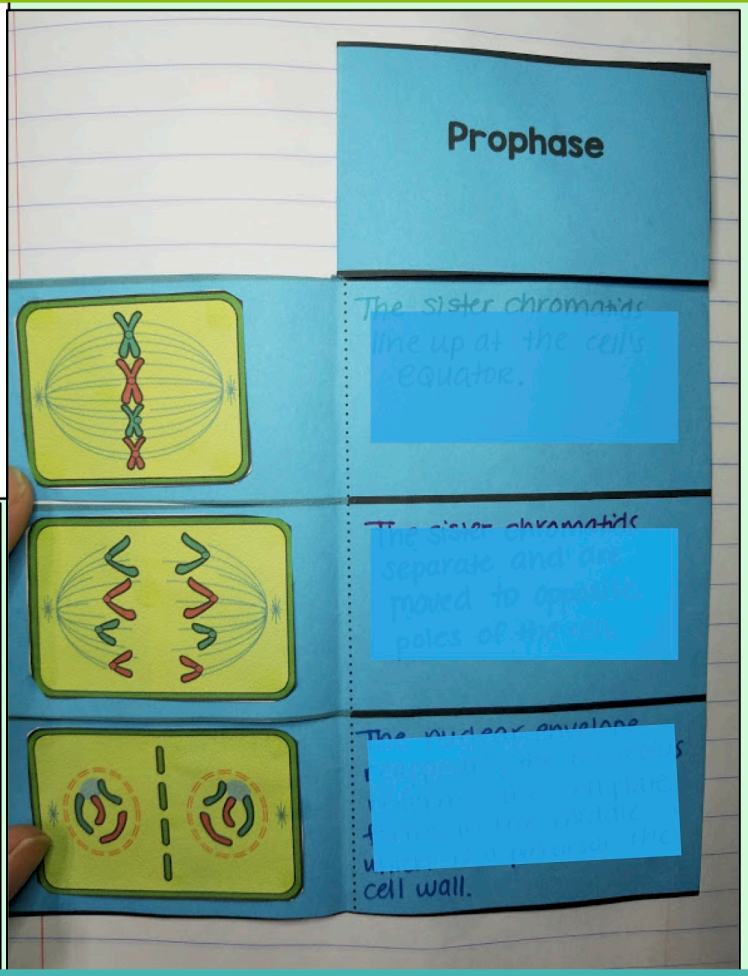

Mitosis in Animal Cells Labeling- students label an animal cell and describe the structures

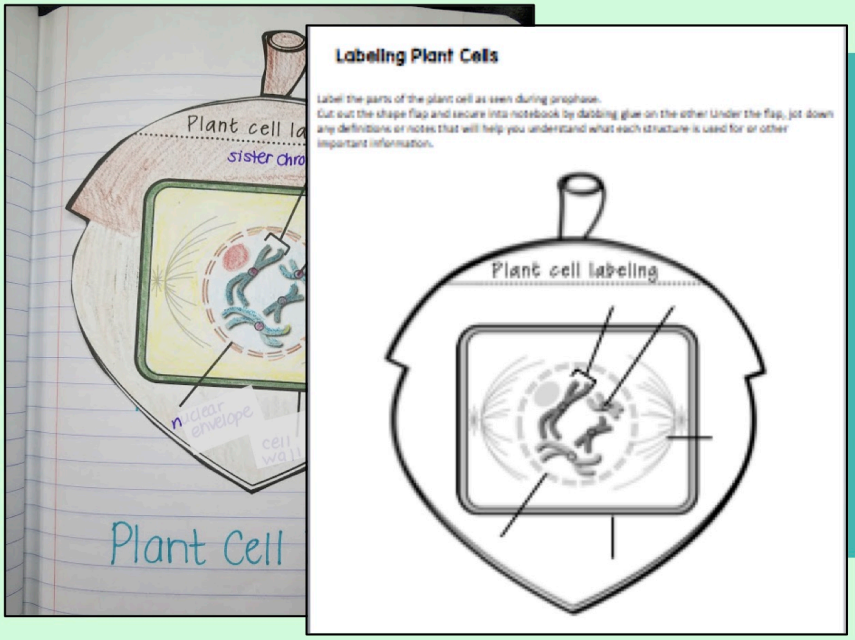

biology roots

Mitosis in Plant Cells

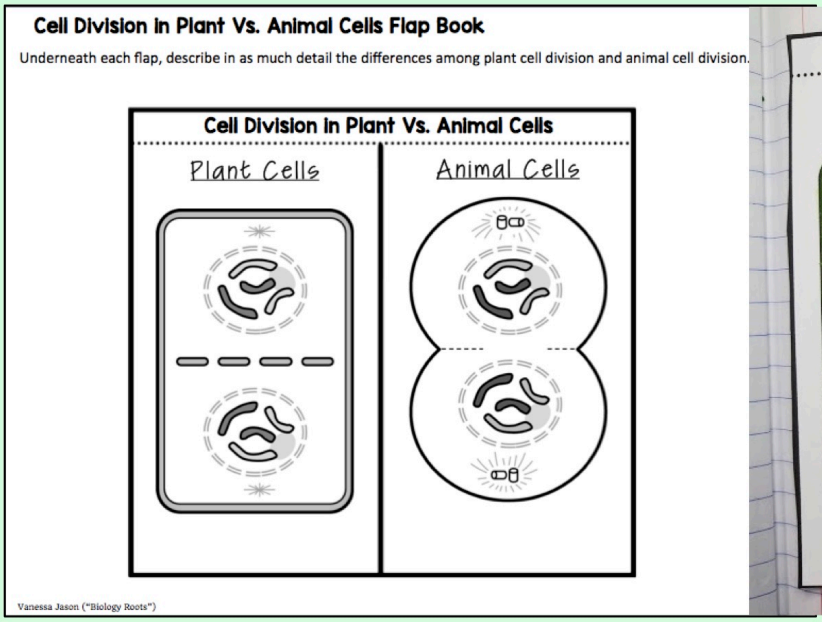

Mitosis in Animal Cells Book Fold- one version includes prometaphase. Also available in black and white.

Mitosis in Plant Cells Labeling- students label a plant cell and describe the structures

biology roots

Comparing Plant Cell Division vs. Animal Cell Division Flap Book

Cell Division in Plant Vs. Animal Cells Flap Book

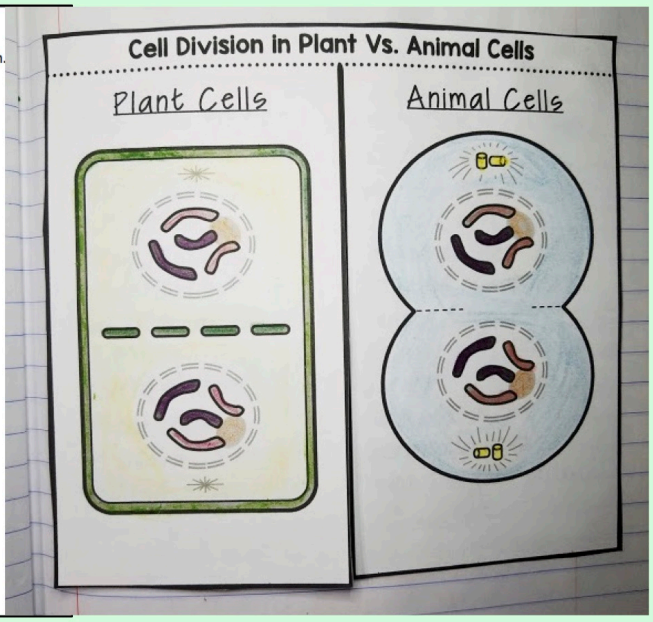

Underneath each flap, describe in as much detail the differences among plant cell division and animal cell division.

Cell Division in Plant Vs. Animal Cells

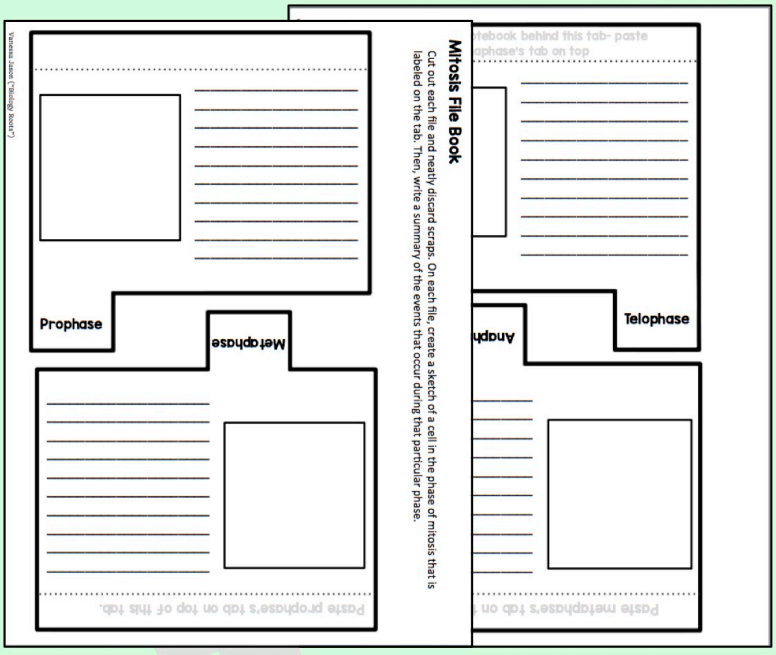

Plant Cells

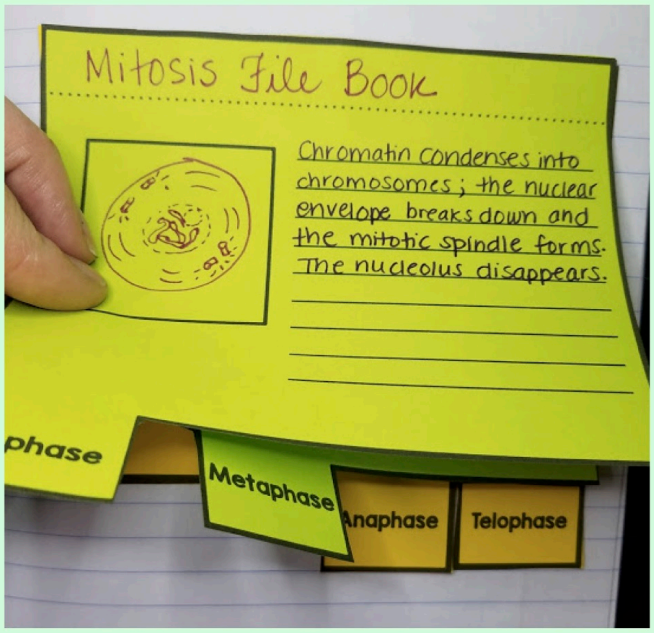

Animal Cells

Vanessa Jason ("Biology Roots")

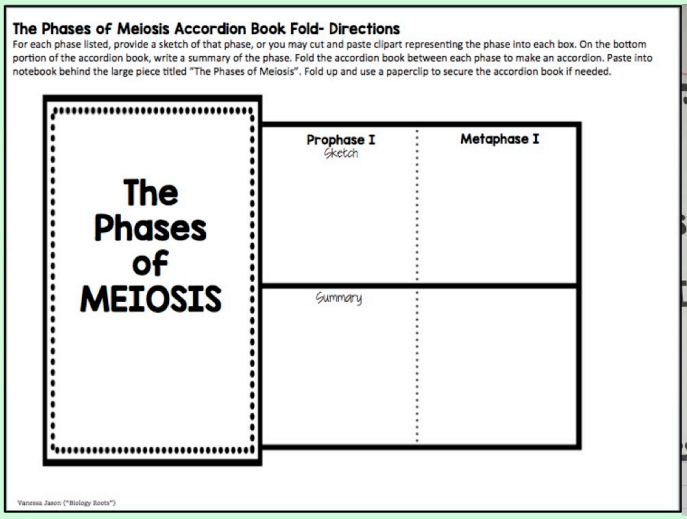

Mitosis Mini File Book- Prophase, Metaphase, Anaphase, Telophase.

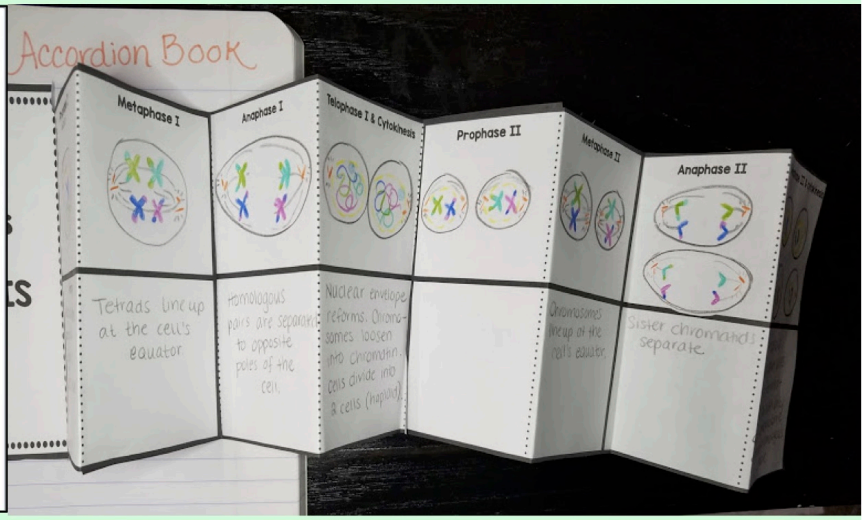

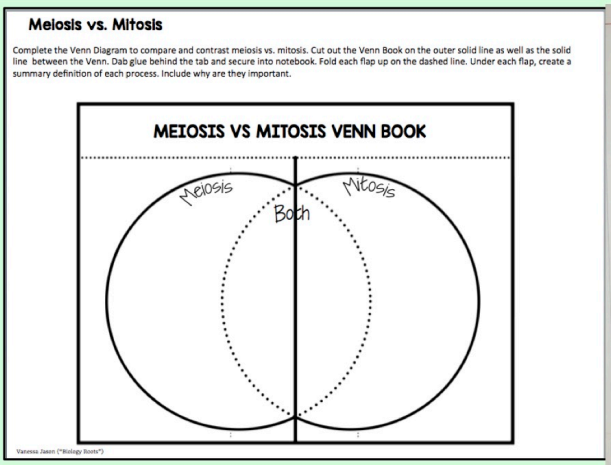

biology roots

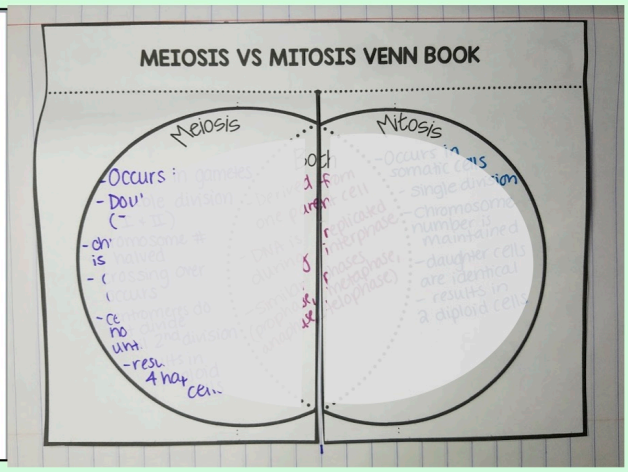

Meiosis Accordion Book-Students sketch the phases and write a description.

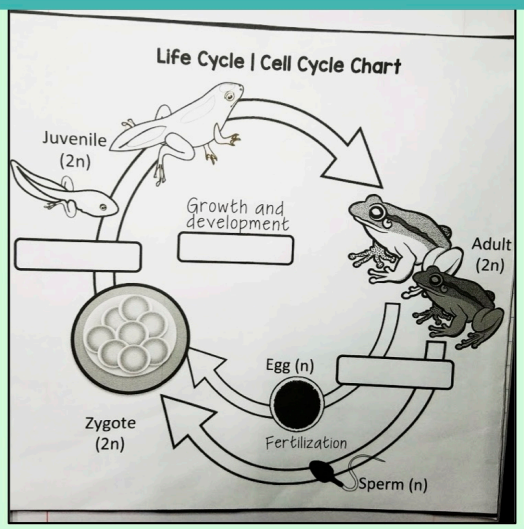

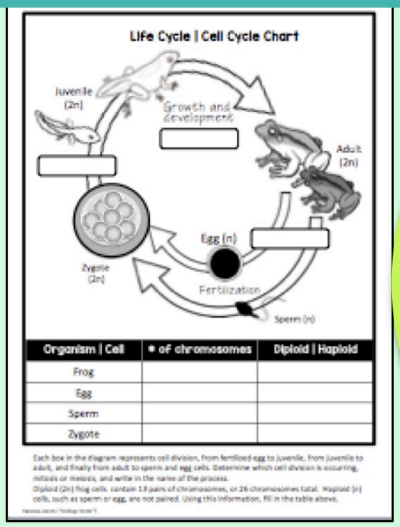

Meiosis and Mitosis Venn Book- students compare meiosis and mitosis

Life cycle diagram – Haploid-Diploid
